PROFESSIONAL SUMMARY

BCA graduate from Galgotias University with hands-on experience in full-stack web development and machine learning. Proficient in JavaScript, React.js, Python, and SQL, with a track record of building and deploying real-world projects — including an ML-powered house price predictor and an interactive Smart City Explorer. Quick learner, strong problem-solver, and collaborative team member. Seeking an entry-level developer role to contribute meaningfully and grow within a product-driven team.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript (ES6+), Python, SQL, C++ (Basics)

Frontend: React.js, Responsive Web Design, DOM Manipulation, CSS Animations, Leaflet.js

Backend: Node.js, REST API Integration, Flask (Basic)

Machine Learning: Scikit-learn, Random Forest, Pandas, NumPy, Data Preprocessing

Databases: PostgreSQL, MongoDB

Tools: Git, GitHub, VS Code, Vercel, GitHub Pages, Power BI, Google Colab, MS Excel

PROJECTS

HousePriceAI — California House Price Prediction [Live Demo](#)

Python · Scikit-learn · Random Forest · Pandas · NumPy · Vercel

- Built an end-to-end ML web app predicting California house prices using a Random Forest model on the California Housing Dataset.
- Handled data preprocessing, feature engineering, and model evaluation (RMSE, R^2); deployed live on Vercel.

Smart City Explorer [Live Demo](#)

HTML5 · CSS3 · JavaScript · Leaflet.js · GitHub Pages

- Built an interactive map app to explore nearby hospitals, metro stations, and restaurants using live location markers.
- Implemented dynamic rendering, custom markers, and route distance with Leaflet.js; responsive, mobile-first layout.

Personal Portfolio Website [Live Demo](#)

HTML5 · CSS3 · JavaScript · GitHub Pages

- Designed and developed a personal portfolio with CSS animations, clean layout, and full mobile responsiveness.

WORK EXPERIENCE

Python Developer Intern | Code Clause · Virtual Internship

Feb 2025 – Apr 2025

- Worked on Python tasks: programming logic, string manipulation, file handling, and writing clean, well-documented code.
- Delivered small-scale projects that strengthened practical coding skills and systematic problem-solving.

Technical Assistant | Vyas Computer & Academic Institute · Delhi

Dec 2025 – Feb 2026

- Managed IT operations: OS installation, software configuration, hardware troubleshooting, and system maintenance.
- Assisted computer training sessions for students and staff; resolved technical issues and maintained lab equipment.
